

Chemnitzer  
Werkstoffmechanik GmbH

# microDAC<sup>®</sup> CTE

Automated measurement of  
coefficients of thermal expansion

*Faster  
and  
more efficient!*

## COMPLETELY AUTOMATED!

Determination of statistically validated material properties  
in the shortest possible time:

**12 CTE\* values at the same time!**

- Highly accurate, non-contact measurement in **two directions (x,y)** and **up to 6 samples simultaneously**
- Temperature range **-40°C to 300°C**

\* CTE - coefficient of thermal expansion
